

Customer Journey Map

Date: 29 September 2026 Team ID: 6ab7959e4c4a9ef0de66bbbee Project Name: AI FitTrack API Maximum Marks: 2 Marks

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Journey Element	Stage 1	Stage 2	Stage 3
Actions	Accesses the AI FitTrack API/application.	Authenticates securely using the available authentication mechanism.	Uses fitness-related and AI-assisted functionality.
Touchpoint	AI FitTrack API/application interface.	JWT-based authentication.	Fitness functionality and Gemini AI integration.
Customer Thought	How do I access the application securely?	Is my information handled reliably?	Can the AI functionality support my fitness needs?
Customer Feeling	Interested in using the fitness service.	More confident when secure authentication is provided.	Supported when useful AI-assisted functionality is available.
Process Ownership	AI FitTrack API / application backend.	Authentication and backend services.	AI integration and application backend.
Opportunities	Make the API/application access simple and clear.	Maintain secure authentication and reliable data handling.	Improve the usefulness and clarity of AI-assisted fitness features.

Source-based note: The supplied project source identifies MongoDB, JWT authentication, and Gemini integration/model configuration. The uploaded journey-map template does not provide specific user actions beyond its stage-based fields, so the map uses only these supported project capabilities and does not assume specific screens or workflows that are not present in the source.
