Technology Stack Details

S.No	Architecture Component / Layer	Technology Chosen	Justification / Purpose
1	Frontend / Client-Side	Not specified in the provided source configuration.	The source is an API/backend configuration and does not identify a frontend framework or client-side technology.
2	Backend / Server-Side	API backend; application port: 5000	The source defines PORT=5000, indicating the configured API/backend service port. The specific backend language/framework is not specified.
3	Database / Data Storage	MongoDB	The configured MONGO_URI identifies MongoDB as the database/data-storage technology.
4	Cloud / Hosting / Deployment	Not specified in the provided source configuration	No cloud provider, hosting platform, container, or deployment technology is specified in the source.
5	Version Control & CI/CD	Not specified in the provided source configuration	No Git, GitHub, GitLab, Jenkins, or CI/CD configuration is specified in the source.
6	Third-Party APIs / Other Tools	Google Gemini API — model: gemini-3.6-flash	The configured Gemini API integration and model setting identify Gemini as the external AI service used for AI-assisted functionality.

Note: Only technologies supported by the provided source configuration are identified. Unspecified components are not assumed.
